In 2001, after he retired as a top business man, Mr. Paul Desmet did a huge investment, buying 24 breeding pairs, directly at the lofts of Jozef De Ridder.  
This has been the right investment: the proves are today's and tomorrow's results.

In these pigeons, we find back the purest blood of the Golden Breeder "**Den As**" **2436386-80**, which has the blood of only worldfamous pigeons in his veins, such as "Motta" of Gerard & Michel Vanhee, Janssen Arendonk and especially **Stichelbaut-blood**.

Paul Desmet bought a grandson of the "**Den As**" **2436386-80**, "**BLAUWE AS**" **2267603-84**. This is the best long distance blood : the 603/84 became 1° Provincial – 2° National Ace Pigeon KBDB Long Distance 1988, as well as 1° Provincial – 7° National Ace Pigeon KBDB Long Distance in 1990. Afterwards he moved to the breeding loft of Jef De Ridder, where he became a golden breeder : a grandchild of him won 1° National Narbonne in 2000 at the lofts of Marc De Cock. A daughter became the grandmother of the 1° National Perpignan 2003 "Zwarte Arafat" at the lofts of Willy & Geert De Schepper, and grandmother of the 1° National Cahors 2003 at the lofts of Jef De Ridder himself.

Paul Desmet bought the father and a brother of the 1° National Perpignan, as well as 5 sons of the legendary **RODE BARCELONA 2004123-86**, which is a son of the "**Den As**" **2436386-80** as well.

A daughter of the "Red Barcelona" is the mother of the 1° National Cahors in 2003.

All these pigeons are presented in the following article.

**Important to mention is that the Jef De Ridder – pigeons are the basis of the De Rauw-Sablou – pigeons ! Even the worldfamous "Dream Couple" of De Rauw-Sablou has the blood of Jef De Ridder in its veins.**
